Hard Eight was founded in January of 2001 by Frank Marrero. His vision and creativity is the drive behind the band. The urge to bring back the 80' s rhythm and melodies to today' s music, with the touches of a Jazz drummer to the mix. The band influences include Iron Maiden, Rob Halford and Dream Theatre just to name a few. This formed the unique sound known as Hard Eight. The band has come together to create a very unique blend of Rock with a Jazz touch. All songs are original.
